### Account Creation

You have indicated that you do not have an account with Hockey Canada's eHockey website.

Please read the following information before continuing.

#### Step one: Create your account

Your first step will be to create yourself an eHockey account so that you can login and perform tasks, such as signing someone up for a Clinic.

#### Step two: Add a Hockey Canada participant to your account

Your next step will be to add a **participant** to your account. A **participant** is a person involved in hockey that you want associated with your account so that you can register them to a clinic, view their profile and history, etc. Once your account has been created and you are logged in, the system will automatically direct you to add a participant to your account. You can also add a participant to your account at any time by clicking on "Add a Participant" in the menu.

#### Step three: Perform tasks with your participants

Once you (the user) have finished adding one or more participants to your account, you will then be able to access their profile, view their hockey history, sign them up for a clinic, etc.

I have read the above steps and would like to create an account.

You must check this box to continue

Enter the PARENT'S information here (NOT the athlete's information):
