

ICE SESSIONS – WHAT TO EXPECT

The safety of all BMHA participants and their families is our top priority and key to the planning and carrying out the 2020 season plan. Below is a summary of protocols and procedures outlined in our Return to Play Plan ([found on our website](#)) that will help reduce risk and permit our children to play the game they love – we will need all our members to follow these procedures in order for our season to happen.

- Any individual who is sick should stay home.
- Prior to attending each ice time, the TeamSnap Health Check **must be completed**:
 - The Health Check is a short questionnaire that is linked to every team event in TeamSnap under event details. The questionnaire asks members screening questions and based on answers submitted, will provide a “Green Cleared” screen or an “Red Not Cleared” screen. BMHA HCSPs/ Check-in Helpers will ask each parent or guardian show the green screen upon arrival from the parent or players personal device.
 - Parents/Players are required to fill out the player’s availability prior to every event as either ‘going’ or ‘no’ (please update any availability that was indicated as ‘maybe’ on the day of the event)
 - If the player is attending, it is mandatory for the Health Check to be completed. If the player is not attending, they should not fill out the Health Check.
 - As symptom screening needs to be filled out the day of the event, the Health Check questionnaire will only open 8 hours prior to the scheduled event. It is imperative that every player’s attendance and Health Check is completed (if player is attending) PRIOR to the player being allowed to enter the facility.
 - For those with ice sessions at Canlan Scotiabarn, in addition to the TeamSnap Health Check, you **must also complete Canlan’s COVID Questionnaire** found at www.CanlanSports.com/Questions.
- Players must enter dressed in their equipment, minus their skates. Exceptions will be made for goalies, they can finish putting on their pads indoors. COVID-19 Helpers will be available to help players with their equipment, tying skates, etc.
- Water bottles must be filled at home and be clearly labelled with the player’s name.
- Players are to bring their own personal hygiene kit containing hand sanitizer, facial tissue, and a mask to use, if/or when necessary.
- Each Arena will have clearly designated Entry & Exit signage – participants and volunteers must follow the directional signs at all times. Please see the Arena floor plans in the RTP.
- There is no access to dressing rooms (exception for Scotiabarn), stands nor water bottle filling stations.
- Participants must wait outside the arena at the beginning of their scheduled time slot with physical distancing and will be checked-in 15 minutes prior to the scheduled ice time.

- Participants and volunteers must leave within 15 minutes of the end of the scheduled ice time so the next group can enter.
- No parents/spectators can enter the rink, other than designated volunteers.
- Parents/guardians are to remain on the arena grounds – if your player shows symptoms of illness, you will be contacted to enter the rink and take them home immediately. If your player needs assistance with the washroom you will be contacted and asked to enter the rink to help your child.

If you have any questions, please contact your Division Manager.
